

The ALSIDE EXTERIOR DESIGN SYSTEM™

Coordinated Easy-Care Products

25' EXTENDED LENGTH REINFORCED SIDING

It's What You Don't See That Makes All The Difference

No seams, no overlaps

Double thick nail hem and advanced locking channel.

3/4" mid-panel butt height adds lateral stability.

Sure-grip bottom tab locks securely to lower panel.

THE FIRST NAME IN STRENGTH AND PERFORMANCE

When Alside introduced Charter Oak, it was an industry first: an advanced nail hem and locking system that provided added rigidity and reliability to the entire panel. Today the TriBeam® System remains the industry standard for exceptional rigidity and performance.

That rigidity means unsurpassed installation quality: straight course lines; smooth, even walls; top-to-bottom beauty, in both new construction and remodeling projects. And you can count on that quality for as long as you own your home. Alside's lifetime limited warranty* puts it in writing.

You can also count on superior resistance to the shearing power of forceful winds. In independent tests, the TriBeam rolled-over nail hem held Charter Oak solidly in place in winds reaching Category 5 hurricane intensity. We hope you never need that kind of reliability, but it's comforting to know it's there. Charter Oak XXL. Engineered for lasting beauty.

*See printed warranty for complete details.

EXTERIOR TRIM, ACCESSORIES AND ACCENTS

Use Trimworks® and other decorative accessories to accent and transform your home. Durable yet attractive, these distinctive components add interest to windows, doors, corners and other memorable areas. Whether it's a bold or simple design, our trim, shakes & scallops, soffit, and vertical siding perfectly coordinate with Charter Oak XXL Vinyl Siding to enhance the beauty of your home.

INDEPENDENT TESTS CONFIRM THE QUALITY

Under an independent program sponsored by the Vinyl Siding Institute (VSI), Charter Oak received ASTM D3679 certification, the industry standard for quality. In addition, Charter Oak is one of the siding systems certified under VSI's new color retention standard, ASTM D6864. To earn this special color certification, the colors were subjected to weather and time tests to ensure they meet or exceed retention requirements and resist major changes in a variety of climates.

PEACE OF MIND

Charter Oak XXL and Alside accessories are backed by lifetime limited warranties.* For complete warranty information, including limitations, please see a printed copy of the warranty.

DESIGN SHOWCASE

See the finished look before the work begins! Our Siding Design Showcase lets you create multiple exterior designs with just the click of a mouse. Simply select a house style and choose siding profiles, accents, soffit and trim, along with color options for doors, roofing, shutters and more. Visit www.alside.com/color-design to get started today.

Pertains to Charter Oak XXL Vinyl Siding. Consult the VSI website at www.vinylsiding.org for a current list of certified products and colors.

ONE LOOK AT A CHARTER OAK XXL INSTALLATION . . .

tells you all you need to know: With fewer visible overlaps, there's much more beauty to appreciate.

LONGER PANELS CAN HIDE IMPERFECTIONS IN EXISTING WALLS

It's easy to spot a home with an elegant siding installation. The course lines are straight and smooth. The joint lines – where individual “board” lengths come together – are either non-existent or carefully minimized for a virtually seamless look. The overall appearance is one of uniform, uninterrupted beauty.

It's a look you typically see in custom wood siding installations. Because lumber comes from mills in different lengths, installers can minimize joints to keep focus on the aesthetic features of a home. But that's harder to do with standard-length sidings – whether vinyl, fiber cement or hardboard. Typically, they require a joint every 12 feet. With fewer seams, Charter Oak XXL also helps seal gaps – minimizing air infiltration slipping through the unappealing seams.

CLASSIC PROFILES. The traditional clapboard profile (4-1/2" exposure width) is an American favorite, appropriate for every type of home and every region of the country. For a panel with an added dimension of appeal, choose an elegant dutch lap profile (4-1/2" exposure width) with its graceful cove detailing.

NATURAL SURFACE TEXTURE. Charter Oak XXL looks like it came from a lumber mill, not a manufacturing plant. It features a detailed texture that looks and feels like the surface of quarter-sawn oak boards.

THE LOOK OF FRESH PAINT. Whatever color and profile you choose, Charter Oak XXL provides a luxurious low-gloss finish that resembles natural wood beauty.

DEEP, REALISTIC SHADOW LINES. Shadow lines define panel courses by providing a sense of depth. The thicker the bottom edge of a panel, the more pronounced the shadow. And the deeper and bolder the shadow, the richer and more elegant the impression created. Charter Oak XXL features a full 3/4" panel projection, the same as costly wood siding.

A PALETTE OF CONTEMPORARY, EASY-CARE COLORS. Designer colors go clear through the panel, so there's no need to worry about chipping or scratching. And because the darker, richer colors are formulated using ChromaTrue®, you gain superior fade resistance. To keep your siding looking as fresh and clean as the day it was installed, just rinse occasionally with a garden hose to remove most airborne dust and dirt.

COLOR-COORDINATED CHOICES

When you paint the exterior of your home, your design options don't go much beyond the basics: What color for walls, what color for trim?

But with Charter Oak XXL, color choices are just the beginning. With its luxurious appearance and easy upkeep, its also friendlier to the environment than many other siding products.

STANDARD COLOR COLLECTION

ARCHITECTURAL COLOR COLLECTION

Note: Colors are as accurate as printing techniques allow. Make final color selections using actual vinyl samples. All colors may not be available in all markets.

DARKER COLORS STAY TRUE!

ChromaTrue® Charter Oak XXL colors stay luxurious and true, thanks to ChromaTrue technology. This advanced copolymer compound provides Charter Oak XXL with long-term color stability and better performance on darker colors.

CHARTER OAK® XXL . . . BRINGS OUT THE CHARACTER OF YOUR HOME

Beautiful and dependable – Charter Oak XXL reinforced vinyl siding is more than twice as long as standard siding, 25' to be exact. At the very least, that means significantly fewer overlaps and a faster, easier installation. More importantly, Charter Oak XXL siding gives installers all the flexibility they need to create the long, clean course lines that give a home the distinction of quality.

AN ECO-FRIENDLY CHOICE

The home that protects you can also help protect the environment. As a durable, eco-friendly product with a long service life, Alside vinyl siding reduces the depletion of wood and other natural resources used in home construction. And because it never needs to be painted, it helps prevent paint, stain and other maintenance-related products from harming the earth.
