# HOME GUARD®

**Beautification • Strength • Safety • Energy Saving**

At HOME GUARD, we take the business of manufacturing doors and windows very seriously. We know that our products will ultimately protect you and your family from the elements and intruders. We know that in an age of diminishing natural resources and expensive fossil fuels, you require home improvements that are energy saving and earth friendly.

We also realize that our customers expect quality construction and long life from our products as well as a rock solid warranty to stand behind them. Lastly, we strive to provide products that are beautiful and increase the value and appearance of your home.

## THE HOME GUARD® WARRANTY

Like the Amish artisans that live and work near the Home Guard factory in Grabill, Indiana, we too craft each door and window one at a time. We are proud to offer a Lifetime Limited Warranty on All Home Guard Entry Doors, Windows and Security Doors.

Efficient manufacturing, effective stock programs, careful and secure packing, and our dedicated truck fleet ensure on-time delivery of each carefully inspected Home Guard product.

*"Our goal is to produce doors and windows constructed of the highest quality materials and built by hand to exacting standards. A Home Guard door or window offers superior value in cost, energy savings and security."*

- The Barbieri Family

**Home Guard Entry Doors\*, Replacement Windows and Security Doors meet or exceed the strict 30/30 guidelines set by the EPA and the U.S. Congress AND are eligible for the Stimulus Package Tax Credit of 30% for a savings up to \$1500.** \* Certain products excluded.

- The Gateway to your home... Beautiful, Energy Efficient & Secure.

Home Guard Industries has been designing and building Ornamental Iron Storm and Screen doors for over a quarter of a century. As the nations largest and most recognized manufacturer, Home Guard has produced over one half million doors on homes and businesses today. Home Guard has five unique Series of doors (over 90 styles) including the new laser cut designs to match almost any décor or taste. Home Guard also offers design services for custom styles if desired. All HGI doors are hand welded, hand polished, bathed in a six stage washer and then powder-coated with one of eighteen stock finishes.

### **Door Closer**

High-strength pneumatic door operator for years of trouble-free operation.

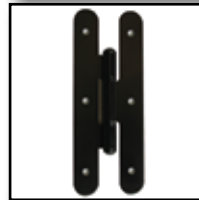

### **Solid Construction**

Cutaway of door panel demonstrates 16 gauge steel tube frame mitre welded for a lifetime of strength and beauty.

### **Fiberglass Mesh Screen**

Durable screen for ventilation and protection from unwanted pests.

### **7" Forged Hinge**

Three heavy-duty, powdercoated hinges feature brass knuckles and are non-removeable for added security.

### **Steel Vault Pin**

Hardened steel vault pin that closes into 16 gauge door frame to virtually eliminate forced entry through hinge side of door.

### **Door Frame**

Heavy gauge metal door frame features high pile weather-stripping for an improved seal and high security. (Available in aluminum or 18 ga. steel.)

### **Tempered Safety Glass**

Features powdercoated aluminum frame and bulb seal for airtight weatherproofing.

### **Powdercoat Finish**

The ultimate metal coating. All doors have been pre-treated in a five stage wash system and top coated with a high-quality, baked-on, TGIC polyester powdercoat finish. (Optional zinc undercoating available.)

## The Ultimate Replacement Window

The Regency replacement window is the highest rated residential window in its class available today. With EnergyGuard10 glass package, this window rates a 0.18 U Factor. The Regency Double-Hung is rated an extremely high structural rating of DP60 for installation in structures up to 13 stories. Available in seven color combinations, including brown with a special heat reflective exterior brown foil. Regency features heavy walls for structure and multiple air chambers for enhanced insulation. Regency... when only the best will do.

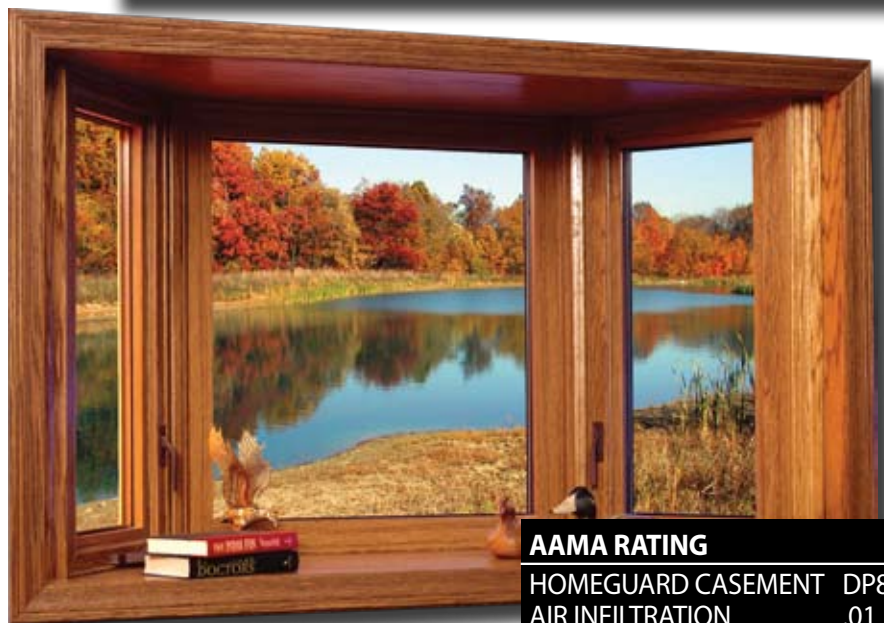

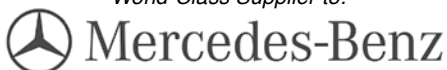

The Regency frame has as much as twice the vinyl of our competitor's welded window. The unique multiple chamber design provides unparalleled structural rigidity and insulation.

*Designed and extruded by Rehau, Germany's leader in vinyl technology.*

ConserVision glass from HomeGuard is the choice for green energy savings benefitting both you and our planet. ConserVision reflects heat back outside keeping your home cool in the summer. In the winter, filtered sunlight helps heats your home (through passive solar gain) while reducing condensation.

### ConserVision100

Features 7/8" overall thermal pane glass with argon gas fill and TripleSilver™ Low-E coating. We add with the XL Stainless Steel warm edge spacer to create a window that is an affordable energy saver.

### ConserVision500

A 7/8" overall triple pane configuration with argon gas fill is a good start. Then we outfit two panes with double silver Low-E coating and add the XL Stainless Steel warm edge spacer. The double silver coating creates exceptional energy efficiency while still allowing passive solar gain for sunny winter days.

### ENERGYGUARD 10

For the absolute maximum glass insulation we utilize triple-glass technology including two panes of high-efficiency Low-E glass, Super Spacer® Premium and Krypton Gas to reach the pinnacle in insulating glass values.

GLASS PERFORMANCE	SOLAR HEAT GAIN COEFFICIENT	WINTER U-FACTOR (AIR/ARGON)	UV	FADING TRANSMISSION

OLD WORLD CRAFTSMANSHIP MEETS MODERN TECHNOLOGY

HOME GUARD Industries' modern, 170,000 sq. ft. manufacturing facility is located on 22 acres right in the heart of the small community of Grabill, Indiana. Grabill is a quaint town of 900 residents, supported by antique stores and custom cabinet shops. The surrounding area has been farmed by generations of Amish families, well known for their detail and craftsmanship. The Grabill location provides HOME GUARD with the perfect atmosphere to produce custom window and door products with uncompromising efficiency, speed and quality.
