

*Entry Door Systems*

*Welcome Home*

## Beauty

HGI Entry Systems will add an element of beauty which will be enjoyed by you, the homeowner, as well as every visitor who comes to your door. Lovely stained and painted finishes will highlight the myriad of decorative glass and unique hardware options. Your new front door will add charm, curb appeal and value to your home.

## Strength

All HGI Steel Entry Systems are built using an all-steel construction 22 gauge door which is 33% heavier than competitors doors for security and durability. All HGI FiberStar Entry Doors are constructed with state-of-the-art technology. Laminated composite rails and high impact skins yield outstanding strength and durability.

## Safety

The safety of your home and family is always first. HGI doors offer such features as an 18 gauge steel frame, deadbolt security plates, high-security six pin locks, and laminated safety glass. Our steel edge door has over ten times the strength of a wood edge door to protect against forced entry.

## Energy Savings

HGI doors will insulate better than many walls with a R rating of 15.1. In layman's terms, our door is the best in the industry at keeping the inside in and the outside out. Windows and doors represent the biggest energy loss in most homes. Allow a beautiful HGI door to save you money.

# HGI 101: How To Build A Door

You are four easy steps away from a new entranceway for your home.

# 1

Select a HOME GUARD® door style from the 26 unique families of glass and doors styles.

# 2

Choose from our twenty decorator colors or seven hand applied stain finishes for the inside and outside of your new entry door.

# 3

Select a knob, lever or handleset (even keyless!) from the many styles and finishes offered to compliment your door.

# 4

Add functionality with a peepsite, knocker, kickplate or mailslot. Add strength and beauty with our exclusive HGI Cladwrap or Timberframe door frame options.

## Lifetime & Beyond Warranty

Like the Amish artisans that live and work near the Home Guard factory in Grabill, Indiana, we too craft each door one at a time. We are proud to offer a Lifetime & Beyond Limited Warranty on All Home Guard Entry Doors. Our exclusive transferable warranty gives peace-of-mind protection against warping, delamination and twisting of door slab for as long as you own the door...and beyond. Please see our Warranty Card for details.

## Steel Door Features

HOME GUARD® IronWood Paintable Smooth Steel and Stainable Steel Doors are the ultimate in home security, beauty, long-term value and longevity. Increased energy savings, safety, home value, curb appeal, a rock-solid warranty - there are a multitude of reasons to upgrade today to a Home Guard door.

HOME GUARD's Exclusive Timberframe® all-composite frame offers all the beauty of wood with none of the headaches. Completely maintenance and worry free, the Timberframe® will not warp, rot, mold or wick water and can be stained to match all HGI door stains. Timberframe® is an option on most HOME GUARD doors.

Magnetic Weatherstripping utilizes refrigerator technology to provide a durable, tight seal to provide year round comfort and energy efficiency.

All doors feature steel edge construction and are fully insulated with an inner core of environmentally friendly polyurethane foam and offer a superior R-factor of 15.1 for the ultimate in energy conservation. Our steel doors are wood-free and will not swell, split, twist, warp or rot like other steel doors with wood rails and lock block.

The door bottom weather-strip slides off and on for easy replacement and forms a weather-tight seal to the threshold. The result is a superior seal that keeps the inside in and the outside out.

Our exclusive steel "L" frame provides the next measure of security adding strength to your entrance. This crucial element is available on all HGI replacement doors and our adjustable strike plate makes installation easy on every door upgrade.

The unequalled security of steel - A wood edge steel door (left) cracked under the force of one hit of a 100 lb. test weight. Steel edge doors (right) did not force open after seven hits of a 100 lb. test weight.

HOME GUARD's exclusive, patented Adjustable Hinge Plate System adjusts up or down and in or out for a tighter weatherseal against the elements and added energy savings.

Hardware finish matched Ball-Bearing Hinges are standard on all doors and offer the ultimate in smooth operation. Individual ball bearings ensure years of quiet, trouble-free use.

Duraframe Jambes are the standard wood frame on all HGI doors and are constructed using an Alaskan Cypress base which repels water preventing the wood from wicking and rotting.

HGI's full 4" X 10" Composite Lock Block has more screw holding power than wood. Injection molded for uniform size, there is no distortion of the door skin typically found with wood lock blocks.

Home Guard entry doors\* are Energy Star approved and meet strict energy efficiency guidelines set by the EPA and US Department of Energy.

\* Certain door styles do not qualify due to glass options.

# Fiberglass Door Features

Home Guard FiberStar™ Fiberglass Doors are beautifully designed with patented Hydroshield™ technology.

This revolutionary system ensures that water is repelled from the perimeter of the door to eliminate twisting or warping.

Deep detailed embossments create a real wood door look without the maintenance and headaches of real wood.

Fiberglass doors are available in both a smooth skin and a woodgrain texture. These doors can be painted in any of our twenty decorator colors or hand-stained in your choice of our seven Ironwood stains.

Special exterior rails are used on the perimeter to shut out moisture from all FiberStar doors. Patented Hydroshield technology ensures against warping, twisting, rotting or splitting...clearly setting our fiberglass doors apart from all the others.

HGI's exclusive Timberframe® all-composite frame offers all the beauty of wood with none of the headaches. Completely maintenance and worry free, the Timberframe® will not warp, rot, mold or wick water and can be stained to match all HGI door stains. Timberframe® is an option on most HGI doors.

The door bottom weather-strip slides off and on for easy replacement and forms a weather-tight seal to the threshold. The result is a superior seal that keeps the inside in and the outside out.

Ball-bearing hinges are standard on all doors and are available in 5 color choices. Individual ball bearings ensure years of quiet, trouble-free use and provide the ultimate in smooth operation.

Duraframe Jamb's are the standard wood frame on all HGI doors and are constructed using an Alaskan Cypress base which repels water preventing the wood from wicking and rotting.

## Environmentally Sound Polyurethane Foam Core

While some other fiberglass door manufacturers still use HCFC-free foam, we are proud to offer a truly "green" door which is completely CFC-free in compliance with the U.S. environmental standards to prevent destruction to the Earth's ozone layer. The advanced polyurethane core used in our doors also enhances the door's soundproofing capabilities and provides insulation properties six times greater than wood.

These unique styles from our Mountain Lake<sup>®</sup> fiberglass entry door collection will offer beauty, energy efficiency and easy operation for decades to come. Mountain Lake offers all of the beauty of natural wood, with none of the headaches.

## Roundtop Entry Doors

- 22 Gauge Steel
- Factory Steel Cap
- Replacement Frame or Timberframe<sup>®</sup> New Construction
- Beautiful renovations
- Wood grains to replace Wood doors
- Archtops are also available

HGI is proud to be one of a handful of manufacturers who have perfected the art of producing high quality roundtop and archtop entry doors. These beautiful and unique doors are made from 22 gauge steel and include a factory-installed steel cap. The HGI Roundtop door can be ordered as a replacement frame unit or as a Timberframe new construction unit. Our roundtops make a perfect, energy saving replacement for antiquated wood doors. Available in 20 baked-on color options or 7 beautiful woodgrain hand-stained finishes, these doors exude charisma and rustic charm, while maintaining modern operation, longevity and energy efficiency.

## Natural Fiberglass Grains

The beauty of natural wood, improved.

HGI's Signature Door Series features a patented grain technology process that authentically replicates any natural surface. The door process begins by hand, selecting the most desirable wood pieces which are then used to build a real wood door. A silicone casting accurately picks up the finest details of the wood grain which are transferred to the door mold using our Nickel Vapor Deposition Technology. The resulting mold is utilized to produce the fiberglass skin of each Signature Series door. The result is a breathtaking reproduction with random grain depths and all the natural characteristics of natural wood, but free from the warping, bowing, delamination and moisture issues that plague real wood doors. Born from real wood but vastly improved upon by state-of-the-art technology. The best of both worlds: HGI Signature Series Doors.

## Blinds

Blinds built right in-between the clear insulated glass let you control light and privacy with ease while forever eliminating dust and damage. Perfect for entry doors, sidelites and Savannah patio doors, where decorative glass is not required.

\*Available in manual tilt/raise & lower configuration.

\*\* The Standard Size Savannah (downsized unit) Available in Paintable Stainable Steel Only  
SS: Signature Series C=Cherry, O=Oak, M=Mahogany

# *French Doors*

Double doors, or "French Doors" as they are called, offer the opportunity for full access to your home or business. Very helpful for the occasional furniture move and a wonderful way to bring in lots of light or decorative glass accents. Double doors are available with hardware on the primary active door or both the active and secondary door as an option. Double doors are equipped with a state of the art astragal that has a weather close out that travels up and down with the internal head and foot bolts. For a classic look consider a HGI french door set available in all door styles, color and stain options.

Easy to operate bolts that secure the secondary door top and bottom

Close out seal travels with slide bolts to ensure a good seal without the usual wear and tear.

# American Home Series

To let the sun shine through, choose clear glass for these traditional door styles. For privacy, many American Home style doors may be available as a Privacy Lite (Textured Rainglass or Micro-Granite glass). Please contact your HGI Inside Sales Representative for availability and pricing.

(C) Mini SD Memory Card & Adapter

Due to manufacturing design, inside viewer mounts ~ 9/16" off-center.

## TimberFrame®

Hand Finished Composite Jamb & Brickmold

Hand Stained To Match All Home Guard® Door Stains

Completely Maintenance & Worry-Free

Will Not Wick Water

Will Not Warp, Rot or Mold

100% Composite Material

Available for Single Doors, Double Doors & Single Doors With Sidelites

Home Guard® is proud to offer TimberFrame® Jamb and Brickmolds. These beautiful, hand-stained jambs and brickmolds are the perfect compliment to the Ironwood® collection of Stained Steel Entry Doors as well as the Village Wood and Mountain Lake Fiberglass collections.

TimberFrame® jamb and brickmold are stained to match Ironwood® doors and all are protected with a GuardCoat coating for years of lasting and durable beauty. Add the look and beauty of wood to your home's entrance with the added strength and security of steel... but with none of the headaches.

## BURGLAR GUARD STRIKE

The Burglar Guard is an innovative HGI exclusive feature that transforms a standard wood door jamb into a high security entryway. The Burglar Guard replaces the entire strike portion of the jamb with two walls of heavy steel for the ultimate protection against forced entry. The Burglar Guard also has two 2-way jamb adjusters to create the perfect margin between the door and the jamb which are accessible simply by removing the strike plates. The strike plates are also adjustable in and out to offer the correct point of insertion for both the deadbolt and the latch.

- 2-Way Jamb Adjuster
- Adjusts latch for both deadbolt & strike
- Allows for perfect weatherstrip compression
- Allows door to close and latch at exactly the right point
- Virtually eliminates kick-in
- Available on single doors only

# Color and Stain Options

HGI is proud to introduce our new line of exclusive color and stain options that span our entire line of entry doors, windows and frames.

Utilizing our exclusive CladWrap system, it is now possible to coordinate doors, windows and frames with perfectly matching or complimenting colors.

Most Home Guard steel and fiberglass entry doors are available in both a smooth surface or with an optional embossed woodgrain for the ultimate wood look finish. All steel doors are zinc-galvanized, primed and painted with a baked-on, high quality exterior paint. Of course, all HGI doors come with our exclusive seven year finish warranty.

## 7 Year Finish Warranty

The wood grain embossed doors can be also be stained with one of our seven hand-rubbed finishes and sealed with Home Guard's exclusive GuardCoat.® Choose from one of the beautiful stains below or combine solid color on one side and stain on the other. Whichever you choose, your finish is backed by our exclusive 7 Year Finish Warranty.

Pecan      Rose Wood      Colonial Oak      Cherry      English Walnut      Harvest Gold      Mahogany

Colors shown are reproduced by the lithographic process and may vary from actual colors.

## Freedom Aluminum Petdoor

Pets crave freedom.

This door gives your pet all the freedom he needs. This solid aluminum frame installs easily and the soft, transparent single flap provides a tight weather seal. The Freedom Aluminum door includes a locking panel that gives you the power to control when your pets can use the door.

### PRODUCT FEATURES

- Solid aluminum construction
- Locking panel
- Color: White
- Transparent single flap for weather-tight seal
- Easy do-it-yourself installation
- Fits doors from 3/8" to 2" thick

Large: Up to 100 lbs

## OLD WORLD CRAFTSMANSHIP MEETS MODERN TECHNOLOGY

HOME GUARD Industries' modern, 170,000 sq. ft. manufacturing facility is located on 22 acres right in the heart of the small community of Grabill, Indiana. Grabill is a quaint town of 900 residents, supported by antique and custom cabinet shops. The surrounding area has been farmed by generations of Amish families, well known for their detail and craftsmanship. The Grabill location provides HOME GUARD with the perfect atmosphere to produce custom window and door products with uncompromising efficiency, speed and quality.
